

## Let Suzie take the worry away...

If there was a way to help you as a parent, carer or teacher convey subjects that can be tricky for you to broach with children, you would be interested...right? Suzie Books provides this opportunity with a series of wonderfully produced books for children. Writer Charlotte first created the stories after returning to writing; "I had been a teaching assistant for some time but found my way back to writing after realising a character and format I had created in my college days had great potential with audiences. The positive outcomes are a great way for me to be able to express some of the hurdles I have faced with my children in order to help other children too." Charlotte told us.

Suzie's character allows the reader to experience her feelings and positive outcomes in situations which many children may find difficult or new to them, such as going on an airplane, going to a funeral or simply going to the hairdressers. Each story is enjoyable and offers up a slice of reassurance and wisdom to enable the reader, or listener to appreciate that

whatever the story or situation it will all be ok. Suzie is really positive and offers praise and a great attitude throughout, it's no wonder she is enjoying such positive feedback herself; "Having already bought and thoroughly enjoyed reading 'Going on an Aeroplane' with my three year old son, I was delighted to see 'Toilet Time ' had been published as a hard copy. I immediately bought it as a gift for a friend. Her daughter has found toilet training tricky and the book will not only open up discussions, it will also give her daughter a friendly character to identify with. The books are a great resource for anyone who wants to help children feel more confident about everyday experiences that they come across. I will be buying more titles." A happy Suzie Books Customer.

Ideal for at home to read with your children or equally great for schools and even funeral parlours, there is something for all children to relate to and therefore something for all of them to learn. So, whether you are a mainstream school, an SEN school or simply a parent

looking to take some of that worry from your children's shoulders look no further than Suzie and her helpful ways.
